The Education of Henry Adams (Illustrated)

As tension is considered to lead to burnout and stress, more recent work has recognized that it is not the existence of contradictions per se that is productive or destructive, but the way they are managed Tracy, Specifically, our original contributions are twofold: firstly, to identify seven dualities through which organizational paradoxes are perceived by middle managers, and secondly, to categorize their responses to cope with paradoxes into four active and three defensive strategies. As early as al-Hallaj d.
